

CR3 Coin Recycler Module

Reliable and Efficient Coin Recycling System

Feature

- CR3 coin recycler module has fast coin input and output speed. 300 coins per minute for input and 450 coins per minute for output.
- The Coin recycler module has high accuracy for counting and sorting with SmartTec independently developed inductive sensor technology.
- 3 recycling cabinets, each capacity is 300-500 coins according to different coin sizes. And a spare coin storage has around 3,000 coins capacity.
- Unique design makes the whole module volume smaller, it can save space for cash handling system integration.
